23 Jan 2008

Dear Planning Commissioners:

These for EACH

RE: SDR-25253—please vote YES on this storage AND modular candings

RE: Planning Commissioner ABSOLUTE decisions on selected special Use Permit items:

Accepting the fact that you each have at heart the best living condition for each resident in every area of our city as well as a plethora of knowledge, we DO INSIST on our mayor and council members putting their and reidual votes on Every issue. (They are voted into office to represent us and if any are weary of that or do not want to commit, they just need to resign.)

We DO appreciate each and everyone of you!

RE: SDR-25485—please vote NO regarding the 70ft, vs 105 it. residential adjacency setback. Residence Estates TO R-3 Medium Density Residential is horrendous enough, please do not allow that decrease in adjacency setback.

RE: SDR-25981—please vote YES. We've been assured there was be no belated request for a liquor license. However, will you add to the conditions the <u>highest fire protections</u> possible? (We understand that was the sause for loss of their previous building.)

Sending our unbridled wishes for a great 2008 to EACH of you measuring us and your own families!

Opresident CNP

J. Carrie
